Control of Rusts (*Puccinia* spp.) in Perennial Grasses Grown for Seed and Control of Powdery Mildew (*Erysiphe graminis*) in Kentucky Bluegrass Grown for Seed

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Rally[®] 40WSP fungicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Rally 40WSP according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Rally 40WSP.

Directions for Use

Rally 40WSP is a systemic curative and protectant fungicide. For best results, apply on a regularly scheduled protectant spray schedule starting at the first sign of disease development and continuing until the threat of further disease development is past. Apply 5 to 7.5 oz (0.125 to 0.187 lb active) of Rally 40WSP in a minimum of 20 gallons of water per acre for ground application or in a minimum of 10 gallons of water per acre for aerial application. Begin applications in early spring or when disease symptoms are first noticeable and continue applications on a 14- to 21-day application schedule. Use a higher rate or shorter spray interval on susceptible varieties or under heavy disease pressure.

Crops	Target Pests
fescues (<i>Festuca</i> spp.) perennial ryegrass (<i>Lolium</i> spp.)	rusts (<i>Puccinia</i> spp.)
Kentucky bluegrass (<i>Poa pratensis</i>)	powdery mildew (<i>Erysiphe graminis</i>)

Specific Use Restrictions:

- Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in the area during application.
- Do not apply more than 30 oz of product (0.75 lb active) per acre per year.
- Do not apply Rally 40WSP within 30 days of harvesting grass hay.
- Do not use treated grass for feed or fodder, or allow livestock to graze treated areas.
- Do not graze livestock in treated fields for one year (365 days) following application.
- **Chemigation:** Do not apply this product through any type of irrigation system.
