

## PRODUCT INFORMATION

### HELM AGRO US, INC.

#### REGISTRATION FOR SPECIAL LOCAL NEED FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF IDAHO

#### RO-NEET® 6-E

EPA Reg. No. 73637-5-74530

EPA SLN No. ID-010015

#### FOR WEED CONTROL IN POSTEMERGENT SUGAR BEETS

##### DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered label.

**SUGAR BEETS:** Postemergence (After The First True Leaves Have Formed) Apply 1/2 - 2/3 gallon per acre of RO-NEET 6-E after thinning and clean cultivation and incorporate to a depth of 2 to 3 inches.

or

Surface apply 1/2 - 2/3 gallon per acre of RO-NEET 6-E and incorporate using 1/2 - 3/4 inch of sprinkler irrigation water, or enough water to penetrate the soil to a depth of 3 - 4".

or

Meter 1/2 - 2/3 gallon per acre of RO-NEET 6-E into the sprinkler irrigation system using a metering device that will introduce a constant flow. Meter into sufficient water to penetrate to a depth of 3-4 inches. Time the application to insure that proper soil penetration corresponds to the end of the irrigation set. Turn the water off promptly after flushing all lines. Use the lower rate on sandy soils and the higher rate on heavier soils.

**All incorporations must occur immediately after application.**

Do not tank-mix with Betamix. For a list of weeds controlled see EPA registered RO-NEET 6-E label.

Apply this product only through sprinklers, including center pivot, lateral move, end tow, side (wheel) roll, traveler, big gun, solid set, or hand moved. Do not apply this product through any other type of irrigation system.

- Crop injury, lack of effectiveness, or illegal pesticide residues in the crop can result from nonuniform distribution of treated water.
- If you have any questions about calibration, you should contact State Extension Service specialists, equipment manufacturers or other experts.
- Do not connect an irrigation system (including greenhouse systems) used for pesticide application to a public water system unless the pesticide label-prescribed safety devices for public water systems are in place.
- A person knowledgeable of the chemigation system and responsible for its operation, or under the supervision of the responsible person, shall shut the system down and make necessary adjustments should the need arise.

##### SPRINKLER IRRIGATION USE REQUIREMENTS

- The system must contain a functional check valve, vacuum relief valve, and low pressure drain appropriately located on the irrigation pipeline to prevent water source contamination from backflow.

- The pesticide injection pipeline must contain a functional, automatic, quick-closing check valve to prevent the flow of fluid back toward the injection pump.
- The pesticide injection pipeline must also contain a functional, normally closed, solenoid-operated valve located on the intake side of the injection pump and connected to the system interlock to prevent fluid from being withdrawn from the supply tank when the irrigation system is either automatically or manually shut down.
- The system must contain functional interlocking controls to automatically shut off the pesticide injection pump when the water pump motor stops.
- The irrigation line or water pump must include a functional pressure switch which will stop the water pump motor when the water pressure decreases to the point where pesticide distribution is adversely affected.
- Systems must use a metering pump, such as a positive displacement injection pump (e.g., diaphragm pump) effectively designed and constructed of materials that are compatible with pesticides and capable of being fitted with a system interlock.
- Do not apply when wind speed favors drift beyond the area intended for treatment.

**All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.**

**This labeling must be in the possession of the user at the time of pesticide application.**

**IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.**

#### **CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY**

**NOTICE:** Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of HELM AGRO US or Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold HELM AGRO US and Seller harmless for any claims relating to such factors.

HELM AGRO US warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or HELM AGRO US, and Buyer and User assume the risk of any such use. HELM AGRO US MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

To the extent consistent with applicable law, in no event shall HELM AGRO US or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF HELM AGRO US AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF HELM AGRO US OR SELLER, THE REPLACEMENT OF THE PRODUCT.

HELM AGRO US and Seller offer this product, and Buyer and User accept it, subject to the foregoing conditions of

sale and limitations of warranty and of liability, which may not be modified except by written agreement signed by a duly authorized representative of HELM AGRO US.
