WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, AND/OR ILLEGAL RESIDUES.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered ZORO® Miticide/Insecticide label.

This label must be in the possession of the user at the time of pesticide application.

Alfalfa Grown For Seed

Apply ZORO® when spider mites first appear. **DO NOT** apply more than 32 fluid ounces or more than two (2) applications of ZORO® per acre in any growing season. **DO NOT** apply a second application within 21 days of the last treatment.

Ground application: Apply 8-16 fluid ounces of product (0.01-0.02 pounds of active ingredient) per acre by ground application in a minimum of 20 gallons of water per acre.

Aerial application: Apply 12-16 fluid ounces of product (0.014-0.02 pounds of active ingredient) per acre by aerial application in a minimum of 10 gallons of water per acre.

Notes: (1) Alfalfa seed from treated fields may not be used for growing sprouts for humans or animal consumption. (2) Producers of alfalfa seed who use this product, or cause the product to be used on fields they operate, are required to inform, in writing, conditioners receiving seed produced on fields treated with this product. A copy of this labeling is required to be provided to the conditioner by the producer. Processed seed must be labeled "**Not for human or animal consumption**" at the processing plant. The processor must dispose of all seed screenings in such a way that they cannot be distributed or used for food or feed.

Precautions for Bees: This product is toxic to bees exposed to direct treatment or residues on blooming crops of weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Apply in the evening after bees have stopped foraging or in early morning before bees begin foraging.
