

## **Idaho Eurasian Watermilfoil Panel**

November 12-16, 2006

The Panel Chair is Dr. Joseph Joyce, Ph.D., Executive Associate Vice President for Agriculture and Natural Resources, University of Florida. The Panel includes aquatic plant managers from Florida, California and Minnesota who have expertise in the control and management of submersed aquatic vegetation nationally and internationally. Collectively, the six panelists have more than 160 years of experience in aquatic plant management and have published more than 400 papers on the subject. To ensure their independence, panelists are free of any connection to business interests or organizations in Idaho.
